

# Hi 🙋 I'm Stanislav Stoianov

✉️ [stanis.stoyanov@gmail.com](mailto:stanis.stoyanov@gmail.com) 🤖 [github.com/ssstoyanov](https://github.com/ssstoyanov)  
💼 [linkedin.com/in/ssstoyanov](https://linkedin.com/in/ssstoyanov) 🛠️ [t.me/slowlav](https://t.me/slowlav)

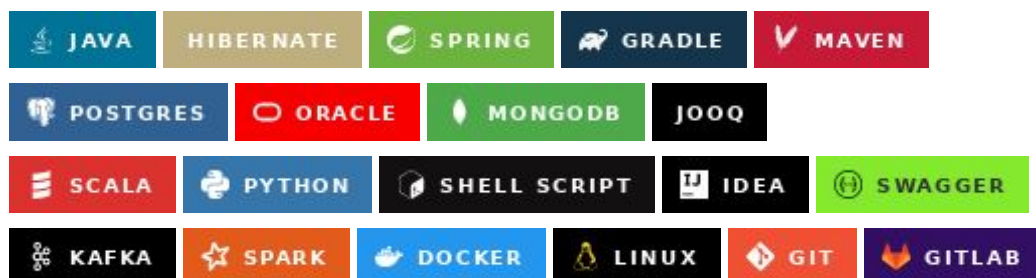

I am a backend developer from Nizhniy Novgorod 🇷🇺

I adore technologies and building new things out of them. Despite my short experience, I'm learning to solve challenges quickly, design scale systems, adapt quickly to the dynamic world of technology, think a few steps ahead and lead small teams when it's needed to get our things done.

I always try to keep up with the latest trends, but I prefer to build things as stupid as possible because this is the only way they can evolve into something bigger.

## 📌 My main buzzwords

## 🏢 Experience

**Java Developer @ Orion Innovation** — Nizhny Novgorod, Russia  
July 2020 — Present

Developing and maintaining enterprise solutions

- Engaging in the internship as team leader, managing three teams of 14 developers
- Participate in the team developing a service for parsing, collecting, processing and handling job vacancies in the European labour market
- We supported and developed energy software for a company based in the US

## Education

**National Research University — Higher School of Economics**  
Bachelor's degree - Software Engineering  
2019 - 2023

Actively engaged in collaborative software development projects as a technical and crew leader. Had my baptism-of-fire in a course on algorithms and data structures where I implemented some string algorithms, graph algorithms, and others.

## Personal info

Male, 21 y.o., originally from Moldova 🇲🇩 Tiraspol. Moved to Russia in 2019 where I'm still today. Wanna move to Europe 🇪🇺

**Hobbies:** running, guitar, taking photos and travelling

### **Languages:**

🇬🇧 English — B2

🇩🇪 German — A1

🇷🇺 Russian — native

Wish to learn Romanian 🇷🇴

### **Citizenships:**

🇷🇺 Russia

🇲🇩 Moldova

🇷🇴 getting Romania 🇪🇺
